Hallgruppen warehouses and logistics structures are a popular choice in sectors such as **ports, train yards, airports** and **vehicle centres**.

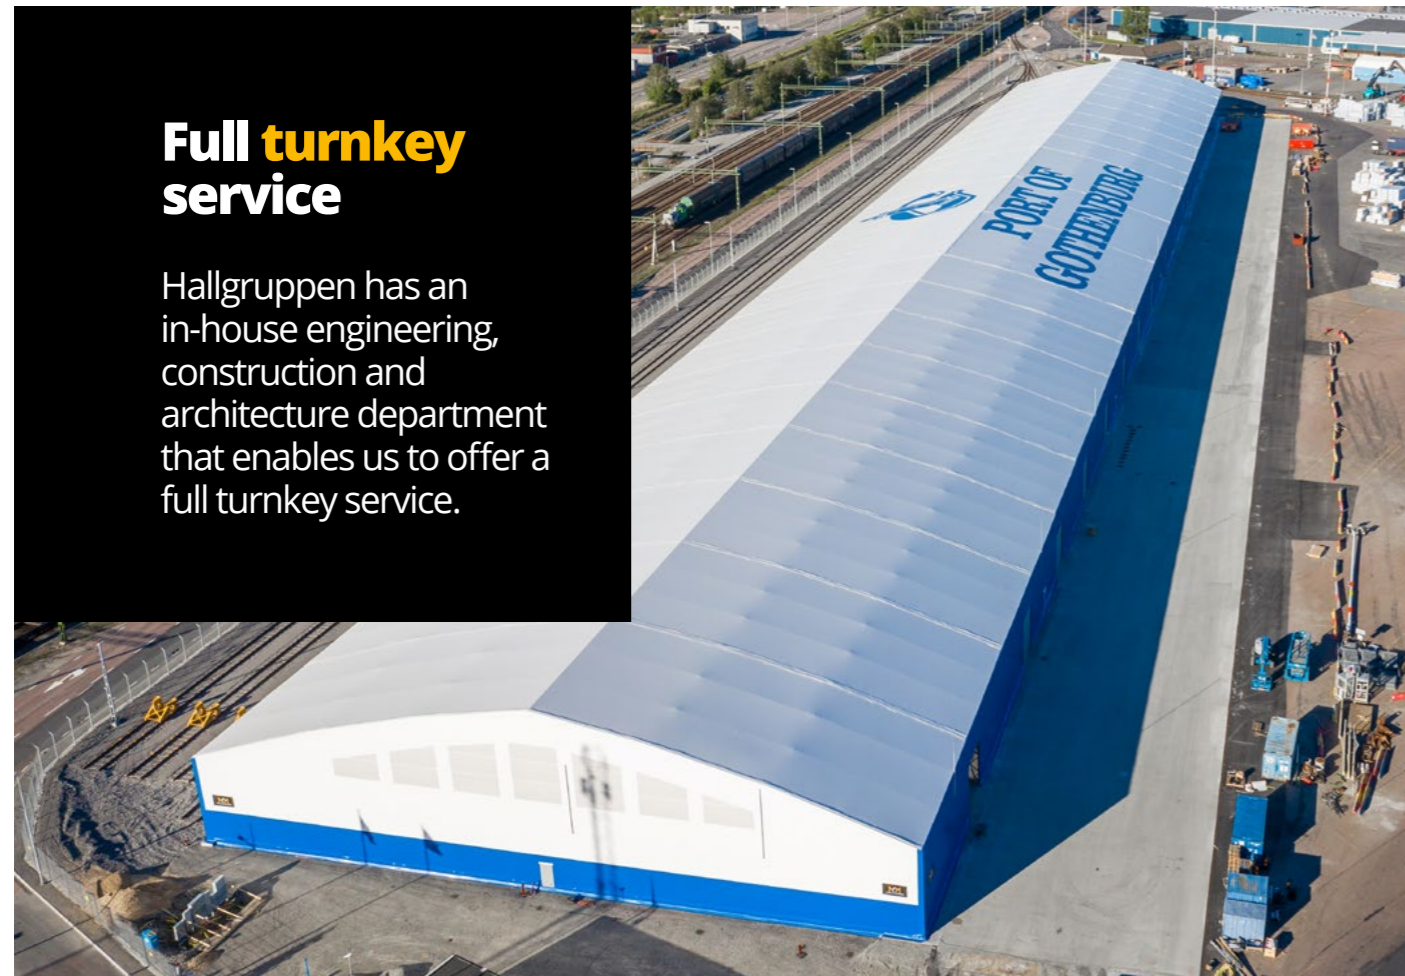

All our products can be designed to include capacity for varying amounts of goods and enable the storage, sorting, shipment or holding storage for imported and exported goods.

Cover anything. Anywhere.

Large quantities on stock
For rapid deployment.

Full turnkey service

Hallgruppen has an in-house engineering, construction and architecture department that enables us to offer a full turnkey service.

Efficient distribution hubs

Hallgruppen fabric buildings and warehouses are ideally suited for creating efficient distribution hubs with integrated office spaces, tailored to the requirements of the goods or services they provide. This can include bulk materials, machines, grain, ores or other raw materials.

The logistics and warehouse buildings can be equipped with, for example, gates, cargo holds and loading docks as required.
